SUPPORTING HUMBLE AREA FFA STUDENTS

Congratulations to the Humble ISD FFA students that were selected to attend auction at the Humble I.S.D. Livestock Show this past February. Waste Management attended the auction and purchased the 4th place rabbit and 5th place goat. Both animals were donated to Boys & Girls Country.

HUMBLE BASEBALL ASSOCIATION FAMILY DAY

For a third year in a row, Waste Management participated in the Humble/Atascocita Baseball Association Family Day at Lyndsey Lyons Park. WM employees and family members cooked and served up hamburgers, hot dogs, sausage-on-a-stick and all the fix’ins to the players and their families. In total, around 700 people were served at the event! “It’s a busy day, but it’s a fun day,” recalls Atascocita District Manager, Gordon Spradley. “We are glad they invited us to be a part of the event. The weather held up, and we had a great time.”

We’d like to thank Humble Atascocita Baseball Association for allowing us to be a part of their event and to all of our volunteers who worked all day on Saturday ensuring the event would be successful.
MANAGER’S REPORT

Happy Spring from Atascocita Landfill! We’ve been very busy at the landfill. Recently, we added a new cell to the landfill and updated the landfill gas collection system with more wells. We installed a third inbound scale at the scale house and are working to widen our entrance to keep trucks off of Wilson Road. This month we also reached out to Humble ISD to help us design and create a new site for the landfill entrance. I can not wait to see what the talented kids in the welding and shop programs at Atascocita High School create.

I’d like to remind everyone that Earth Day is April 22, 2019. To celebrate, we helped out our friends at the Chick-fil-A at Wilson Road and Sam Houston Tollway by bringing a truck and give-a-ways to their Earth Day Event on April 16. The evening was a lot of fun and we were able to talk about recycling to many residents.

In the spirit of Earth Day, don’t forget you can drop off household recyclables at the landfill. We will accept bottles, cans, paper and cardboard from Humble residents free-of-charge. Just make sure what you bring is clean and dry.

As usual, if you have any questions, please don’t hesitate to contact me. –Gordon Spradley

Common Recycling Contaminates During the Spring
Help us continue battling recycling contamination with us during the spring! Keep these common contaminants out of your recycle bin.

- NO Plastic Bags, Film
  Mulch bags belong in the trash. Take other clean plastic bags back to your local grocer. Visit plasticfilmrecycling.org to find a drop off location near you.

- NO Yard & Wood Waste
  Compost or mulch in your backyard, if not, bundle wood and place with regular trash.

- NO Garden Hoses
  These must go in the trash.

- NO Patio Furniture
  Not everything made of plastic of metal belongs in the recycle bin. Only recycle clean bottles and cans. Donate used patio furniture.
